1. Provide specific reasons for the proposal of this course and explain how the changes enhance the curriculum.

NURS 466 will be beneficial as health care systems and informatics adapt to the technology needs of nursing. It will investigate the concept of meaningful use as it impacts client outcomes, examine the use of clinical decision support systems in delivery of care, and utilize information systems/technology to evaluate indicators of quality care in healthcare systems. Through this course, students will evaluate the impact of informatics on interprofessional and collaborative care. Because of the rural demographics in our state,

4. If this will be a dual listed course, indicate how the distinction between the two levels will be made.
N/A
5. Desired section size 25
6. Provide qualifications of faculty who will teach this course. List name(s), rank(s), and degree(s).
LeAnn Lamb, Instructor, MSN, RN
